Experience

Junior Developer @ Bottletop Media

September 2021 - Present

➔ Work with creating and maintaining the front end code for hundreds of schools' websites, both by myself and in cooperation with the Lead Developer

➔ Help implement unique designs and features for schools/governing bodies who are looking for something a little more interesting or aesthetically pleasing

➔ Create page structures on the company's CMS software for new clients' websites using a Selenium (browser automation) script I created

Personal Projects

Just A Tracker - Live Demo | Code

HTML, CSS/SASS, JavaScript, Python, Flask, SQLAlchemy, JQuery, Bootstrap

➔ Created a full-stack, bug tracking web application, with a live demo hosted on Heroku

➔ Designed a user authentication system as part of the back end for the application

➔ Made a database for storing all users, workspaces and bugs

Speed Typer - Code

Python, PyQt5, PyQtGraph, NLTK, Bash

➔ Designed and created a Python desktop application for practicing typing, with a modern, minimalistic design

➔ Leveraged the NLTK library to generate near endless sources of text for a user to practice with

➔ Implemented a system for the user to track their progress

daily_hn - PyPi Package | Code

Python, Pytest, Github Actions, Web Scraping, Curses

➔ Built a cross-platform CLI for displaying and opening links to the current best stories from news.ycombinator.com

➔ Created tests to ensure the tool would work as intended and automated those tests using Tox and Github Actions

Skills

Back End

Python · Flask · SQL
PyQt5 · Pytest · Git
Selenium · Bash · Linux

Front End

JavaScript(ES6) · React
HTML · CSS · SASS
Bootstrap
